Background warranting formulation of Listing Scheme 19

and the Issues & Challenges it Addresses

A. Considerable delay and uncertainty regarding listing of cases in earlier Roster System

- ✓ The proposal for listing of cases given manually by the clerk in regular and freshly filed cases.
- ✓ The allocation of work was made to the Hon'ble Judges on the basis of case wise classification. The experience shows that it resulted in huge accumulation of even fresh cases in particular Bench.
- ✓ The proposals given in freshly filed cases remained pending for months together. The cases which were to be listed in a particular week, were not listed in that week, sometimes even for months together.

“For instance, Hon'ble Court has been pleased to order to list them after 1/2/3 weeks, the cases could not be listed for months together.”

Continue...

Background warranting formulation of Listing Scheme and the Issues & Challenges it Addresses

- ✓ The old cases could not find place in the cause list and it was occupied by freshly filed cases and the cases in which court slip was granted by the Hon'ble Courts.
- ✓ Earlier listing scheme did not provide for prioritized listing.
- ✓ **Final Hearing** cases remained pending for months together and no hearing could take place on account of not attending the matters in the right earnest.
- ✓ The situation of pre-admission cases in the was a matter of serious concern due to large pendency.
- ✓ Earlier Bail Application were first **ADMITTED** for Final Hearing and then case diary was called and it used to take usually a month or two for the disposal of Bail Application.

Background warranting formulation of Listing Scheme and the Issues & Challenges it Addresses

- ✓ ***Imbalanced work-flow:-*** There was no rationalization with respect to the workload. This resulted into a growing mismatch between demand and supply due to large number of cases/applications pending in the process stage itself.
- ✓ ***Lack of Standard Completion Time:-*** There was no measure of standard completion time in process steps like filing, verification, listing etc., which resulted in poor work efficiency, as there was complete absence of any reference measure.
- ✓ ***Allegations of corruption against officials:-*** There were allegations of malpractices and the general perception of the litigants and the lawyers was that the officials of the High Court are corrupt and that nothing moves without money.

New Scheme of Rationalization of Assignment Cum Listing of Cases

In the aforesaid background, New Scheme of Rationalization of Assignment Cum Listing of Cases introduced to tackle the problems of ...

- ✓ *docket explosion,*
- ✓ *Streamlining the listing procedure and for better court management and*
- ✓ *For ensuring effective disposal, transparency, accountability and consistency to make it litigant and lawyer friendly.”*

New Scheme of Rationalization of Assignment Cum Listing of Cases

In the New Scheme:-

- ✓ The role of clerks has completely changed from manually sending proposals to updating of cases. Now, it is the computer programme which tells the clerks as to what work he has to do on a particular day.
- ✓ The New Scheme envisages twelve(12), Major Heads of listing of Motion Hearing / Pre-Admission matters arranged in order of precedence.
- ✓ Final Hearing matters have been categorized rationalizing the priority of the cases for listing into number of Priority Categories in Division & Single Bench Cases.

New Scheme of Rationalization of Assignment Cum Listing of Cases

- ✓ All the clerks update their cases, which are shown in the **RED POOL** of cases available for listing.
- ✓ Thereafter, the cases are being listed through computer programme as per assignment of cases and there is no manual intervention, which ensures accuracy, consistency and transparency in the listing system.
- ✓ The most important and unique feature of this Scheme is that every Pre-admission Case has a date either given by the Hon'ble Court or Computer generated date.
- ✓ The freshly filed, Bail Matters are automatically listed on the 3rd or 5th working day from the date of its filing.
- ✓ Thus, fresh cases, which were not listed for months together in the earlier system, are now being listed as per computer programme.

New Scheme of Rationalization of Assignment Cum Listing of Cases

- ✓ Advance Daily list for the entire week is published on the previous working Friday and ported on the website.
- ✓ This has ensured transparency, accuracy and consistency in the listing of cases and has completely obviated the allegations of corruption in listing of the cases.
- ✓ This is a unique feature, perhaps in whole of the India, that the cause lists are prepared on the basis of updation through automatized computer programme and not on the basis of manual proposal.
- ✓ This system has brought to an end any kind of malpractice, as human intervention has been reduced to the greatest possible extent.

New Scheme of Rationalization of Assignment Cum Listing of Cases

- ✓ **Equal distribution of work amongst Hon'ble Judges:-** The workload has been distributed equally amongst the Hon'ble Judges on day-to-day basis. The allocation of cases is in order of seniority and chronologically.
- ✓ **Saving Court's time:-**
 - ❖ In earlier system, mentioning before all the Courts consumed a lot of time ranging from 15– 30 minutes and now, mentioning before only one Hon'ble Bench saves considerable working hours of remaining Courts.
 - ❖ Introduction of concept of 'Common Order' & 'Common Conditional Order' has also helped in saving the valuable time of Hon'ble Courts.

New Scheme of Rationalization of Assignment Cum Listing of Cases

- ✓ **Benefits to the Dealing Assistants:-**Assigned work shown everyday on their computer screen in the form of of three lists shown in three colours i.e. **Red, Orange & Green**.
- ✓ The cases shown in **RED pool** are to be updated by the clerk on same day by which it comes to the **Green pool**.
- ✓ The cases shown in **Orange** pool are to be updated by the clerk in a week by which it comes to the **Green pool**.
- ✓ The causelist is prepared from the cases shown in **Green pool** by the automated computer program after proper selection.

New Scheme of Rationalization of Assignment Cum Listing of Cases

- ✓ As soon as order is passed by the Hon'ble Bench, the Concerned Reader is required to enter information in the Reader's module and the auto-generated system immediately reflect a date.
- ✓ Auto Generated Alert System Ensuring Accountability:-
 - ❖ The dealing assistants have to update their cases shown in Red pool by 3:00 pm on every day. If they do not finish their task by that time, SMS is sent to the concerned Section Officer.
 - ❖ At 4 P.M., message is flashed to the Deputy Registrar/Add. Registrar, if the cases are not updated.
 - ❖ Thus there is a multi-layered inbuilt monitoring system which ensures the accountability of each and every official of the High Court.

Classification of Cases

The Cases are classified into two groups, Motion and Final Hearing:-

- ✓ Cases in which computer generated dates are given are also to be listed (100 main cases), **after listing of fixed date and freshly filed cases**, if the space so permits.
- ✓ If the list is **oversized with Court given date/fresh cases**, the computer generated dates cases “**After Notice admission cases of the same type**” are listed chronologically in suitable lots **after four weeks**.
- ✓ Court dated pre-admission cases are listed on fixed dates and are not left out.

- ✓ Weekly list is drawn from the Consolidated Quarterly List of ready matters.
- ✓ The cases notified in the weekly list are commensurate with the inter-se ratio of the pending cases of categories in the quarterly list as worked out by CMIS software and not manually.
- ✓ If, however, in a given category, **there are only five or less than five cases available for listing in the week**, all such cases are included in the weekly list automatically.

Listing of Final Hearing Cases

- ✓ If any case fits in two or more priority categories, then it will be automatically included by the CMIS software in the category where it would get priority.
- ✓ **Part heard / Specially Assigned Matters** cease to be part heard/ specially assigned with change of assignment of cases of the concerned category before the same Hon'ble Court.
- ✓ **The Election Petitions** are to be heard as priority cases by the concerned Judge to whom the case has been assigned.
- ✓ Final hearing matters are classified for the listing in **rationalized priority categories**. (Annexures enclosed).

Work Distribution of Court Staff

- ✓ Allocation of different nature of work to the concerned Court staff.
- ✓ It ensures processing of assigned files within prescribed time and obviates user delay.
- ✓ Non-compliance of given task to the Dealing Assistant is immediately reflected on the computer screen of the higher authorities and SMS is also sent immediately to the superior officers.
- ✓ Thus accountability is fixed at every level (from Dealing Assistant to Registrar level).
- ✓ Updation of cases is decentralized and is done at various levels such as Reader, Dealing Assistant, Checker, Default clerk, Receipt clerk etc.

Automatized Preparation of Cause List

1. Cause lists of Jabalpur, Indore and Gwalior are being prepared from Principal Seat, Jabalpur.
2. The cases are listed according to **Date of Institution**.
3. More than 95% cases are being allocated on future dates as per remarks of Reader of concerned Hon'ble Court. In case of some compliance, D.A's can update the matter but **he/ she cannot fix it beyond tentative listing date**.
4. **Roster of benches are being created electronically**, cases are allocated according to nature of cases assigned to a bench. It saves time and minimise mistakes of allocation of a matter without roster assignment.

Automatized Preparation of Cause List

5. Weekly Motion and Final hearing cause lists are being prepared. Counsels and litigants were getting information well in advance through Website, by Email or SMS of their listed matters.
6. Earlier DA receive hard copies of cause list and thereafter they transmit records to the Hon'ble Court. Now weekly cause list is available on their desktop, they can verify cases, prepare on time and transit them to Hon'ble bench in advance.
7. Tied up matters to a particular bench and in few cases matters which are restricted before a particular bench are managed effectively.

(Huge Paper saving by reducing printing copies of cause list.)

Automatized Preparation of Cause List

8. Adjustment of advocates is effectively working as per Registration No's of advocates which make adjustment system more reliable.
9. An advance system is developed for listing of ADMITTED matters. The cases are allocated strictly according to prioritized categories and inter-se ratio in respect of total pendency in the pool.
